

It's a **NO BRAINER** for thieves. An open or poorly maintained door means open season on your belongings. Protect your possessions by planning ahead:

## OPEN DOOR POLICY

- Make sure entry doors fit their frames tightly.
- All exterior doors should be made of metal or solid wood.
- Buy a deadbolt with a one-inch throw, and make sure the metal plates in the frame and door have three-inch screws.
- Always close and lock your doors, whether you're home or not. Be sure that everyone in your household does the same.

Don't leave yourself open to burglary.

Lock up your house!
