# Table of Contents

## 3.2 Agricultural Resources ................................................................. 3.2-1

3.2.1 LUCE Update EIR ................................................................. 3.2-2
3.2.2 Environmental Setting ........................................................... 3.2-2
  3.2.2.1 Regional Context ......................................................... 3.2-2
  3.2.2.2 Local Context ............................................................. 3.2-3
  3.2.2.3 Project Site ................................................................. 3.2-4
3.2.3 Regulatory Setting ................................................................. 3.2-7
  3.2.3.1 Federal ................................................................. 3.2-7
  3.2.3.2 State ................................................................. 3.2-7
  3.2.3.3 Local ................................................................. 3.2-10
3.2.4 Environmental Impact Analysis .............................................. 3.2-16
  3.2.4.1 Thresholds of Significance ........................................... 3.2-16
  3.2.4.2 Impact Assessment Methodology ................................. 3.2-17
  3.2.4.3 Project Impacts and Mitigation Measures .................... 3.2-19
  3.2.4.4 Cumulative Impacts .................................................. 3.2-28

## 3.3 Air Quality and Greenhouse Gas Emissions ................................. 3.3-1

3.3.1 LUCE Update EIR ................................................................. 3.3-1
3.3.2 Environmental Setting ........................................................... 3.3-2
  3.3.2.1 Regional Climate and Meteorology ............................... 3.3-2
  3.3.2.2 Greenhouse Gases and Global Climate Change ............ 3.3-3
  3.3.2.3 Regional Air Quality .................................................. 3.3-4
  3.3.2.4 Regional Emissions ..................................................... 3.3-4
  3.3.2.5 Emissions in the Vicinity of the Project Site .................. 3.3-6
3.3.3 Regulatory Setting ................................................................. 3.3-7
  3.3.3.1 Federal ................................................................. 3.3-7
  3.3.3.2 State ................................................................. 3.3-8
  3.3.3.3 Local ................................................................. 3.3-14
3.3.4 Environmental Impact Analysis .............................................. 3.3-15
  3.3.4.1 Thresholds of Significance ........................................... 3.3-15
  3.3.4.2 Impact Assessment Methodology ................................. 3.3-20
  3.3.4.3 Project Impacts and Mitigation Measures .................... 3.3-23

## 3.4 Biological Resources ................................................................. 3.4-1

3.4.1 LUCE Update EIR ................................................................. 3.4-1
3.4.2 Environmental Setting ........................................................... 3.4-2
  3.4.2.1 Project Site Overview .................................................. 3.4-2
  3.4.2.2 Upland Habitat ......................................................... 3.4-5
  3.4.2.3 Vegetation .............................................................. 3.4-8
  3.4.2.4 Wildlife .............................................................. 3.4-9
  3.4.2.5 Special Status Species .............................................. 3.4-10
  3.4.2.6 Critical Habitat ....................................................... 3.4-17
3.4.3 Regulatory Setting ................................................................. 3.4-18
  3.4.3.1 Federal ................................................................. 3.4-18
  3.4.3.2 State ................................................................. 3.4-19
  3.4.3.3 Local ................................................................. 3.4-21
3.4.4 Environmental Impact Analysis .............................................. 3.4-28
