Together we can slow the spread

Our number one priority is always the health and safety of this community. The Fire Department will continue to provide our All-Risk services during this Pandemic.

What is COVID-19?
COVID-19 is a new virus that can affect your lungs and airways. It’s caused by a type of coronavirus. There are simple steps you can take to protect you, your family and our community.

What are the symptoms?
- a fever
- a cough
- shortness of breath

If you think you have been exposed to COVID-19 and develop symptoms, call your healthcare provider for medical advice.

How does it spread?
Like the flu, COVID-19 can be transmitted from person to person. When an infected person coughs, sneezes or talks, they may generate droplets which may settle on surrounding surfaces containing the virus. People may get infected by the virus if they touch those surfaces or objects, and then touch their mouth, nose or eyes. That’s why it’s really important to use good hygiene.

Protect yourself
- Wash your hands
- Stay home
- Cover your cough
- Clean and disinfect surfaces
