

KVA 1 - Baseline

View of existing condition at the intersection of Industrial Way and railroad right-of-way, looking south from the specific plan area near 'B' Street. Islay Hill at left; Graduate Restaurant at right.

KVA 1 - Simulation

Simulation of the proposed bridge structure based on the SLO Jennifer Street overpass. Bridge spans 3 tracks and is 22' clear above railhead, plus an additional 4 feet to compensate for the railroad embankment at this location.

KVA 2 - Baseline

View of existing condition at the intersection of Industrial Way and railroad right-of-way, looking east from Industrial Way, adjacent to the Graduate Restaurant.

KVA 2 - Simulation

Simulation of the proposed bridge structure based on the SLO Jennifer Street overpass. (Bottom of bridge 22' above railhead.)
